

Peachtree QUANTUM

Peachtree Quantum 2010 is 2 x faster than QuickBooks® Enterprise Solutions 9.0!¹

Peachtree by Sage Quantum 2010: Unrivalled Performance

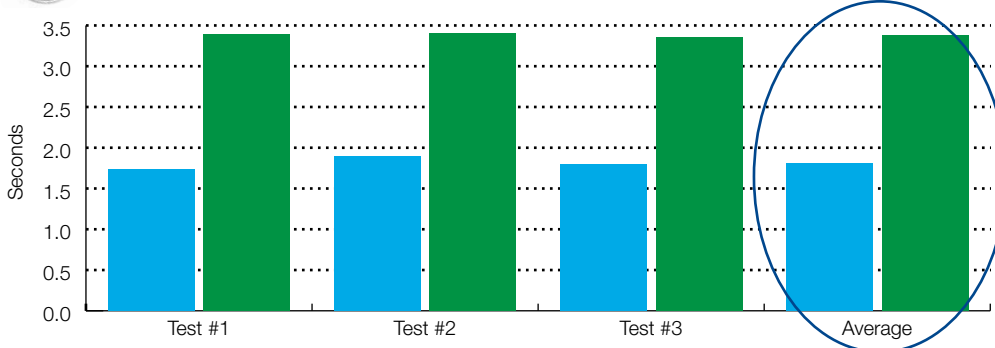

Peachtree by Sage Quantum 2010 is the most comprehensive accounting solution in the Peachtree line providing superior performance and now offering solutions for 10, 15, 20, 30, or 40 licensed, named users². Peachtree Quantum incorporates a proprietary technology called SmartPosting, which yields increased performance in saving transactions and allows users to complete more work in less time.

Advantages of Peachtree Quantum 2010 over QuickBooks Enterprise Solutions 9.0

The SmartPosting technology within Peachtree Quantum allows the individual workstations to be freed up in a multi-user environment by moving certain activities to the server. This allows users to quickly move between various tasks, allowing for overall better product performance and efficiency. QuickBooks Enterprise Solutions 9.0 does not have SmartPosting technology, and the head-to-head performance testing shows the advantages this technology brings to Peachtree Quantum 2010.

Aged Payables Reports	30	4.03	2.24	-44%
Invoice Register Reports	30	3.20	3.44	7%
Check Register Reports	30	5.31	2.43	-54%
General Ledger Reports	30	19.04	1.92	-90%
Average For All		3.38	1.81	-47%

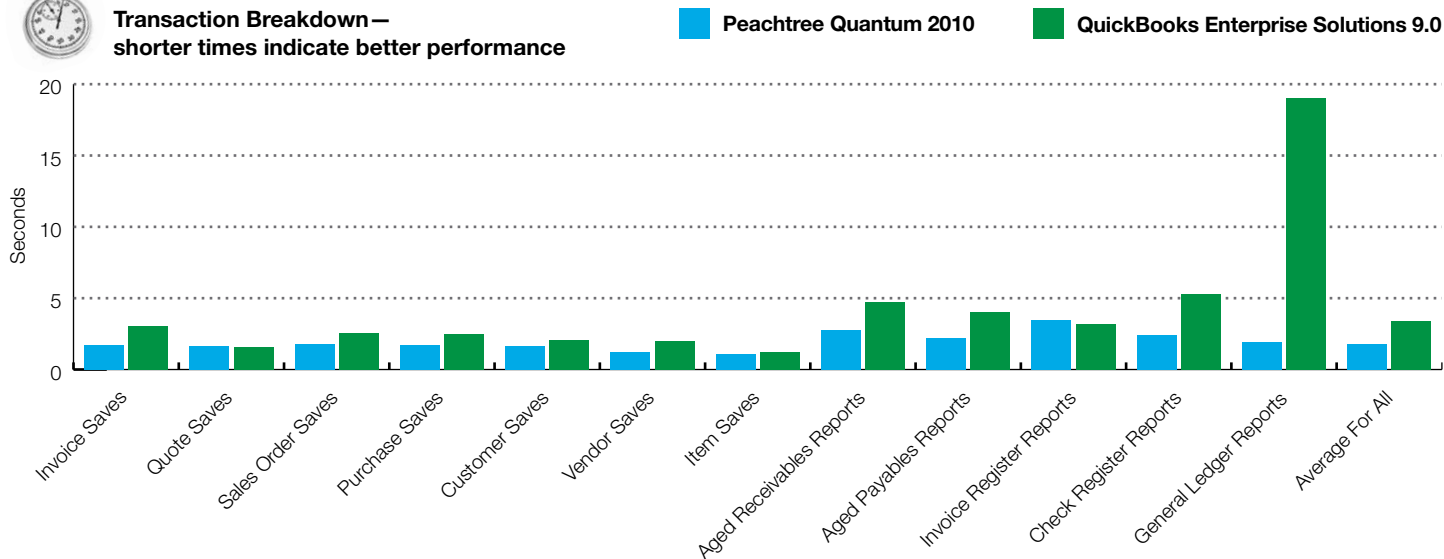

NOTE: Products were compared using the most current versions available in December 2008. Statements made by Sage are subjective based on internal software evaluation and documentation.

In most areas of the testing criteria, Peachtree Quantum 2010 outperformed QuickBooks Enterprise Solutions 9.0. Save times are faster in most-used areas such as invoices, sales orders, purchase orders, general ledger, aged payables, and more!

Transaction Breakdown—
shorter times indicate better performance

How does the performance of Peachtree Quantum 2010 compare to Peachtree Premium Accounting 2010?

- Experience up to 90% faster save times³, providing multi-user work efficiency and allowing up to twice as much work to be completed. Save times are faster in most-used areas such as invoices, quotes, sales orders, receipts, purchase orders, payments, and more!
- Because Peachtree Quantum has been designed to handle more transactions with more users, even greater performance improvements should be experienced in these environments.
- Those upgrading from older Peachtree versions should experience even greater performance gains when moving to Peachtree Quantum 2010.
- Provides access to nearly all reports in less than 1 second³.
